5 Select tables

6 Migrate data

Source database

staff_database

DESKTOP-██████████\SQLEXPRESS

Target database

staff_db

cloud-sql-server.database.windows.net

Select the tables containing data you would like to migrate to Azure SQL Database. Microsoft strongly recommends that you temporarily change your Azure SQL Database to performance level P15 during the migration process for the optimal migration experience.

Learn more about performance tiers

Selected tables (1/1)

<input checked="" type="checkbox"/>	Table name	Row count	Ready to move
<input checked="" type="checkbox"/>	[dbo].[staff_salary]	6,704	OK

Activate Windows

Go to Settings to activate Windows.
